APPROVAL OF STATE ENGINEER	
This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the	e
following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water here granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this	
right must allow for a reasonable lowering of the static water level:	
at permittee's well due to other ground water development in the area	_
A substantial weir or other type of measuring devicemmust be installed	đ
and measurements of water use kept. The well shall be equipped with	
a 2-inch opening and an air line for measuring depth to water. If	
well is flowing, a valve must be installed and maintained to prevent.	
waste. The State retains the right to regulate the use of the water	
herein granted at any and all times.	
The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and	đ
not to exceed cubic feet per second
